

LIM THIEW KOON CINDY, 04S36
VICTORIA JUNIOR COLLEGE

I chose this design because I am proud of Stephanie Sun, a well-known singer in Singapore. By creating her photograph as one of the pictures to be stored in my graphic calculator, I thought I could personalize my calculator and thus fulfill the theme of 'Graphics Calculator And Me'. This should be an innovative idea that allows all photos to be formatted and stored. I have explored the TI Connect Software and learnt to make use of it in a creative manner such that the graphics calculator can be sort of a digital photo album. (a new function)
