

**GOH BENG KIM, 04S34  
VICTORIA JUNIOR COLLEGE**

**I believe that graphics calculator can be used for other purposes than just only for graphing, that is why I choose to speak my mind through the graphics calculator. I use it as a tool to represent what I feel and to reflect my image. I myself am a loving and caring person, that is why I use the symbol of a heart to reflect what I believe in the most, which is LOVE! The word “love” and “peace” associated with the heart symbol is a way of mine to promote peace and harmony. I believe that true peace can only be achieved through unconditional love.**
