

**ONG SHU REN SARAH, 1S03K**  
**RAFFLES JUNIOR COLLEGE**

Geometry links life and graphical calculators. “Life a roller-coaster/: you just got to ride it”, the ups and downs of life are to a great extent influenced by the choices we make, the buttons we press. “Deg” and “SIN” take on a whole new meaning for the paper chase and the evil we perpetuate. If only life came with a manual...but then again part of life is in not projecting too far ahead. I am much more complex than a calculator, and no diagram, 2-D, or 3-D projected on 2-D, can fully capture me.
