

TAN WEI JEN JASON, 117
YISHUN JUNIOR COLLEGE

I chose the panda because I see the need to protect such an endangered and delicate animal. The panda needs the will and strength that the bamboo shoots have in order to protect themselves. Bamboo shoots represent strength and determination because they do not easily break in times of strong rain and wind. This, in turn, represents my will to take part in this competition. Another reason for choosing this design would be that the panda and bamboo shoots are related to the given theme. I have learnt the different techniques to draw on a graphic calculator.
