

**LIM CHI-WEN JEROME, 1T29
CATHOLIC JUNIOR COLLEGE**

Focusing on the theme, I decided that the praying mantis would fulfill the role of 'Nature' as it showed an aggressive, not helpless Mother Nature. The binary code background was designed to bring forward the computing abilities of the GC, the other part of the theme. The MANTIS RELOADED title was meant to be a spoof on 'MATRIX RELOADED' of the MATRIX movie trilogy.

Throughout the design process, I have learnt that much more than just doing mathematics, with a little creativity and the many modes and functions, a veritable work of art can be created.
