

**TAN YAN PENG BRYAN, SEC 3H  
NAN CHIAU HIGH SCHOOL**

**Where the land meets the sea is a great place to come face to face with these amazing animals, no swimming involved. I enjoyed the scene where humans interact with the dolphin. I decided to use the graphic calculator to capture this beautiful scene. This type of feeling is the best where humans really interact with the nature mammals.**

**The name of this design is 'Dances with the Dolphin'.**
