

ZHANG KANG, 05IP02
NATIONAL JUNIOR COLLEGE

Inspired by curiosity, human reveals mysteries of the nature i.e. black hole. In the design, the question mark represents human's curiosity, which novitiate towards unknowns. The calculator and satellite represents tools we used to discover the nature. The formula represents the marvelous intellectual accomplishment by human, namely, mathematics, which allows us to comprehend the nature. Through the designing process, I have gained a better understanding on how to use my graphic calculator. But more importantly, I learn to appreciate the beauty of nature and mathematics. Graphs and curves are so beautiful, especially when you spend much time on it.
