

**LEE KAI TAI, 3H 15**  
**HWA CHONG INSTITUTION**

**I was thinking of an idea for the design, when I looked out to my balcony and saw a beautiful flower that has just bloomed. Since this year's theme is graphic calculator and nature, I decided to use the flower as a base for the design.**

**I have learnt a lot from the process of making this design. At first, I knew little about how to use the graphic calculator. There were numerous times when I could not make the design that I wanted and had to look up books and notes for help. It was a tiring and painful process, but the joy when I have succeeded was priceless. All the effort paid off when I have finished the design.**
