

TIAN YUAN, 05V11
VICTORIA JUNIOR COLLEGE

This is a smiling fox. Basically, I choose this design is because I want everybody to know that happiness is very important in our life, we should be happy and face all the troubles in the life confidently. Just be like the fox in the picture, showing his arms, although there are no muscles and he is not strong, he can still smile. So, always think positively and live happily, showing your smiling face.
