

ADEEB FAZAH BIN ANWAR AZIZ MARICAN, 07V13
VICTORIA JUNIOR COLLEGE

I chose this design in relation to the theme of fashion and the graphic calculator. I figured that showing an icon in fashion would be nice. So I designed the emblem of a famous design label in fashion today. I also included a drawing of a lady in nice clothes, carrying a hand bag that is supposed to show how fashion is quite a big thing in our generation. The text just adds to the feel of the fashion label. It shows how people would always keep up with the fashion scene today. I feel that through the designing of the picture, I learnt more about the functions in my graphic calculator, and also the different ways I can make pictures, etc. in my graphic calculator. And I also learnt that there might always be a different way of doing things in the Graphic calculator.
