

**DEWI DEWANGGA SUPRANA, 3I  
METHODIST GIRLS' SCHOOL**

**I made the design of a car because for me, a fashion is not necessarily things that we wear such as dress. Car is also one form of fashion. Because of that, its feature is designed beautifully by car designer.**

**A lot of designs for clothes nowadays are inspired from the old-fashioned clothes with modification. From there, I was thinking how an old-fashioned car can be modified such that it becomes a new and unique car. So, I decided to design an old fashioned car (front part) that is modified (back part) such that it can be used in our era now.**
