RAFFLES JUNIOR COLLEGE**

**Two women meet. Perceivably, they are from different eras. One dons the fashion of the Victorian era, while the other wears an elegant modern dress. This creates a contrast, but yet their encounter creates a beautiful picture, a sight to behold.**

**The lady of the older age represents Mathematics that I had learnt before, without the use of electronic aids. The lady of the modern times represents the Mathematics that I learn now, with the supreme help of the Graphic Calculator. Each form of Mathematics is a beauty of its own, but when placed together, the synchrony and magnificence is obvious, and the fusion marvelous.**
