Fashion is most commonly associated with ladies. At the mention of fashion, big names such as “Gucci”, “Prada”, “Levi’s “ and “U2” are sure to ring a bell. In this design, I tried to show the connection women have with fashion by expressing their desire for goods such as dresses and jewellery, of brands such as “Gucci” and “Levi’s”, which are commonly hailed as fashion icons. Notice also the different hairstyles of each girl. From time to time, fashion trends are also often carried in the variations to our crowning glory as depicted in the design.
