

LIU YE, 07S53
VICTORIA JUNIOR COLLEGE

I chose this design because it represents the modern society's trend to a more materialistic society due to women's enslavement to fashion. Their pursuits for fashionable dress, bags, shoes and jewelries drive the development of the fashion world.

I learnt that I should know my tools well to make right and full use of them. We are unable to draw a diagram as nicely as what we can draw with a pen. When displaying graphs of equations, GC can only give a rough idea. We should know our work and do not use the GC blankly.

I also learnt the importance of planning.
