

**YAP KIAN TING AUDREY, 07S33
VICTORIA JUNIOR COLLEGE**

The iPod has been a fashion statement amongst individuals, ranging from youths to working adults and even celebrities. Flowers have also been age-old motifs and designs on fashion accessories such as clothes, shoes, bags. Being a proud member of the Victorian family, I decided to add the school's initials, VJC, on the iPod display screen.

I have learnt how to use the Draw tool of the GC. The beauty of tiny pixels coming together to form different words or pictures shows how versatile squares really are, and how they can be applied in appliances such as televisions and cameras.
