

**TEO CHYE TECK, 0624A
INNOVA JUNIOR COLLEGE**

I have chosen a repeated pattern of a wavering sin wave curve as my design because it defines my kind of fashion. Fashion to me is a kind of art with a certain mysterious feeling and spaces for imaginations and this design fits my definition. The simple and different shades of the design can allow people to imagine what it means. It can serve as an accessory for the GC, giving it a fashionable feel.
