

**WANG HUI JUAN, 07V13  
VICTORIA JUNIOR COLLEGE**

**I really did a lot research on it, at first, I found that there are different models for plotting in the GC, such as “func” (function), “pol” (polar), rect (Rectangular Coordinate). These are all terms unknown for me, that’s where researches come in. as research going on, I learn a lot that I did expected to learn.**

**I chose to make a rose because I like nature and I thought that it is good for fashion.**
