

**LE NHU THONG, 331
ST JOSEPH'S INSTITUTION**

This is a design of a wedding blouse. I chose this since it is simple and yet meaningful and elegant. This dress in pink with white collar and white gown will make the bride really beautiful. I leant to think out of the box in the process of learning all the different functions of the graphic calculators. It's indeed a handy tool and make learning of graphs more interesting and alive!
