

LI YIN, 4I
HWA CHONG INSTITUTION (HIGH SCHOOL)

The design comprises of an F1 race car in the middle, the Esplanade on the left and the Melion on the right, implying Singapore's upcoming F1 event. The design originated from my passion for F1 and conveys my best wishes to F1 in Singapore.

During the process, I consolidated my knowledge of how to move the graph when the equation is partially modified. I become more familiar with the GC. I also learned to be patient and careful which are crucial during GC designing.
