

HUANG ZILE, 06IP02
NATIONAL JUNIOR COLLEGE

I like winter and snow. That is why I chose to create this design. From the design, we can see an nj boy on his special skiing board. Yea, it is a GC! (I try to link GC and sports together). The black and white dots represent the flying snow. I think this can show the speed of the person.

I have learnt that GC is a really powerful tool. If you can use it well, it will bring you a fantastic result. Just like skiing board can let you fly on the snow, GC can also let you “fly” during exams.
