

**TAI WAN, 07IP06
NATIONAL JUNIOR COLLEGE**

Air rifle is a mental sport. Every shot can give your nerves a tension. I like this kind of feeling so I design this picture. It makes people excited.

This design and the techniques used are all very simple but I think they are already sufficient to show the theme—Sports.

From the process of creating this design, I noticed that GC is really very powerful if you know how to use it.
