

**ZHANG CHUNMENG, 06IP06
NATIONAL JUNIOR COLLEGE**

The design is a boy swimming in the sea. Personally, I like swimming. I think swimming is a very good form of sports. In hot days, swimming can bring you coolness. Of course, it will make you fit at the same time. In the design, bright sunlight and big waves symbolize Singapore. The white lines on the top and bottom show the speed of the swimmer. It represents the fast pace of working and living in Singapore.

I have learnt that if you can use GC properly, it is not just a calculator but also a friend.
