

## ZENG FAN JUN, NAN CHIAU HIGH SCHOOL

I wanted to create a light-hearted design and I chose Doraemon as my main character because firstly, it is a well-known cartoon character. Secondly, Doraemon has endless ideas and instruments. This allows him to have the ability to amaze and capture people's attention and interest. This picture depicts Doraemon flying on his personalized spacecraft in space, returning to Earth from Planet Nobita which was specially created by Doraemon for Nobita, his best friend.

I have learnt some of the amazing functions which were not taught in my school curriculum and how to use the graphic calculator more efficiently.
