

SUN GUAN QUN, RIVER VALLEY HIGH SCHOOL

Human explores astronomy because of their innate curiosity. We are born with curiosity, which makes our childhood full of fun. Children imagine being able to fly into the universe, travel the world like Astro-boy in Japanese animation. Astro-boy let us recall our pretty dreams and fascinations of the galaxy.

When designing and drawing the character of Astro-boy, I have gained more knowledge about the features of different equations. I have improved in solving intersections and so on. In all, I have learned a lot from my experience
